

## Pacific Northwest Site Office

*The Pacific Northwest Site Office (PNSO) became the newest of the three Department of Energy offices in the Tri-Cities, Washington, when it was chartered in December 2003 to manage DOE's contract with Battelle to operate Pacific Northwest National Laboratory (PNNL).*

*Mike Kluse  
PNNL Director  
Battelle*

*Mike Weis  
PNSO Manager  
U.S. DOE*

*In partnership with PNNL, our job is to enable ground -breaking science at PNNL to meet the challenging needs of the nation.*

*PNNL's world class research campus is bringing the tools to science to solve the nation's most pressing problems in:*

**Scientific  
Discovery**

**Energy  
Security**

**Environmental  
Stewardship**

**National/Homeland  
Security**

## Pacific Northwest Site Office

*PNNL is one of the U.S. Department of Energy's (DOE's) ten national laboratories, managed by DOE's Office of Science. PNNL also performs research for other DOE offices as well as government agencies, universities, and industry to deliver breakthrough science and technology to meet today's key national needs. PNNL currently has approximately 4,700 staff members and an average annual budget of \$940 million.*

Science

## Pacific Northwest Site Office

*PNSO is committed to being an advocate for PNNL's success in science and technology by supporting:*

- *The Laboratory's missions*
- *Development of new scientific facilities*
- *Approving and authorizing actions on time or ahead of schedule*
- *Oversight focused on outcomes*
